PROFESSIONAL PORTFOLIO

# Who I Am

PMP® -certified Senior Project Manager operating as a fractional PMO lead and contract PM consultant, with 10+ years across creative, agency, and production operations, including 7+ years in dedicated project and program management.

I build project management functions from the ground up: I stood up a studio's first PMO, migrated teams to Monday.com with full adoption, and governed creative resourcing as a Workfront administrator across multi-portfolio studios.

I run delivery fluently across methodologies, pairing Agile and Scrum practice with predictive and hybrid planning against fixed launch and campaign milestones — and I pair that delivery discipline with business development.
